TOTAL PERFORMANCE

PRODUCTION SALE

MARCH 17, 2021 • 1PM • BARTLETT, NE

Dear Fellow Cattlemen,

Welcome to the 46th annual Total Performance Production Sale. We greatly appreciate your time evaluating our offering.

The genetics in this offering represent 3 generations of the Wolf family's commitment to the beef industry. We use these genetics in our own large scale commercial herd in a two-breed crossbreeding system. We feed them ourselves, harvest them on the grid, and keep our own replacements. That to us is Total Performance. They must be profitable for us and meet our standards to see continued use in our program. That commitment keeps us from chasing fads and keeps us after the traits that matter to our bottom line. They are the same things that matter to yours: Docility, Fertility, Performance, Carcass, Efficiency.

Docility is where everything starts for us. Docile cattle consistently, gain, grade and breed better. These bulls have been scored for docility every time they are through a chute from preconditioning on. To make the sale, they are sorted off by themselves and surrounded by four people to judge how they handle themselves. Cows are scored three times a year: calving, breeding and pregnancy check. Low stress is the name of our handling game, but it is dependent on getting high stress animals out of the herd every chance you get. We have shown these bulls everything we can from kids to dogs, side-by-sides to horses to people on foot. We want them to perform not disturb.

Fertility is the single most important factor to ranch profitability and possibly the trait with the least amount of reliable data. The cow is important to us. She is our profit center. As you read the footnotes throughout this catalog, you will notice nursing ratio, number of calves and calving interval mentioned a lot. That is because longevity is important to the profitability on our ranch and we believe in making bulls that are profitable long term for you.

Performance is crucial to the dollars and cents of our feedlot business, so we continue to push the needle at both weaning and yearling. We are always working to compliment that with moderate mature size. One of Jay's favorite sayings is "Performance to a year-old pays, everything after that costs." It is an antagonism that we are continually striving to maximize. Carcass is what our business is all about, converting low quality forage into high quality protein. We are the highest priced protein on the block, so we need to taste good. With that said, we must balance this with all our other goals. We will not sacrifice our customer's profitability for the sake of the packer's. We also recognize that we can continue to move the bell curve in the right direction without getting out of line. If end-product is what you need, we have bulls to do that while making daughters that work.

With all these things in mind, we use our own in house designed index that works across both breeds and you will see it referenced throughout the catalog. It guides our breeding decisions along with our eye for structure and quality. We know that most order buyers still judge the cattle on what they see in the sale ring as much as what is on the paper. Why not do well at both.

We look forward to visiting with you and seeing you in Bartlett on March 17th or anytime between now and then. The door is always open.

- JOE EPPERLY

TERMS & CONDITIONS

Standard Terms and Conditions as adopted by the American Angus Association and American International Charolais Association respectively.

PRE-SALE PARTY

You are invited for drinks and Wagonhammer Beef, Tuesday, March 16, 2021 beginning at 5:00 P.M. at the sale facility. All of us will be there to answer any questions you may have about our cattle program.

• Videos, Updated EPDs, Ultrasound & Scrotal Measurements, Available sale day and on the website: www.wagonhammer.com

BREEDING GUARANTEE

Bulls selling for more than \$3,000 are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bull is not available, credit will be given in next year's Wagonhammer Sale. Credit will be the purchase price less volume discounts and salvage value of the injured bull to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be prior to Oct. 1, 2021. This is not a mortality insurance policy. Mortality insurance will be available sale day through American LiveStock Insurance. Sale day contact Jim Gies (970) 590- 0500. Any deviations from the above statement will be worked out between the buyer and Wagonhammer Ranch.

FERTILITY

All bulls selling have passed a semen test. Town & Country Vet Clinic at Albion fertility tested and scrotal measured the bulls. Feel free to contact Dr. Jeremy Young or Dr. Cody Gulbrandson with any questions at (800) 657-2119.

RETAINED SEMEN INTEREST

Sellers retain 1/3 semen interest on all bulls selling. Buyers receive full possession and all salvage value.

DELIVERY

We are glad to deliver or arrange trucking for your bulls within 300 miles of Bartlett, NE. We will begin delivery starting April 1. We offer a \$100 credit per bull if you take them day of the sale.

BULL BUYER'S VOLUME DISCOUNT

On 5 or more bulls - 5%

On 10 or more bulls - 10%

ONLINE BIDDING & BROADCASTING

The sale will be broadcast live with online bidding on SuperiorLivestock.com and SuperiorClickToBid.com. Please register to bid at least 24 hours before the sale. See page 19 for complete information.

CALVING EASE

We pride ourselves on providing you our valued customers with bulls that will produce calves that are born easily, get up quickly and start growing. We also recognize that not every bull needs to breed heifer and so we have created a system to identify the potential heifer bulls in the sale via a star rating system. Please use the key below to help understand our recommendations on how each bull can be used based off their EPDs, actual performance, dam's production record and pedigree history.

5 STAR CALVING EASE

No doubt heifer bull. He was born light and unassisted. His EPDs are elite for calving ease. His sire, dam and maternal grandsire have a history of calving ease.

4 STAR CALVING EASE

EPDs for CED and BW suggest he should work well on heifers. Born with moderate birth weight and born unassisted. Pedigree has history of calving ease.

3 STAR CALVING EASE

EPDs for CED and BW suggest calving ease. Born with either heavier actual weight unassisted or smaller actual weight with abnormal presentation. Can be used on heifers with caution especially that are more developed prior to first calving (weighing 1150+). These bulls will fit well to breed wet two year olds. Pedigree has calving ease history.

Bulls without highlighted calving ease – bulls that aren't highlighted for calving ease will have typical Angus characteristics for easy calving but their numerical indicators and history tell us that they will work best on cows to maximize growth.

Our Charolais bulls average in the top 25% of the breed for calving ease but we only breed Purebred Charolais heifers to Charolais bulls. Our commercial heifers are all bred to Angus bulls and so the Charolais are not scored for calving ease like the Angus. Please use CED as you evaluate those bulls for use in your program.

TOP DOLLAR & CERTIFIED ANGUS BEEF

We have joined a partnership with Top Dollar Angus to help supply high quality genetics to the feeding industry and to help connect you, our customers, with those buyers looking for high quality genetics. More information about the program is on [page 53](#).

The American Angus Association and Certified Angus Beef have launched a program to recognize bulls with the genetic potential to expand the supply of CAB beef in the marketplace. More information on this logo and its definition is on [page 29](#).

TOP 10

The Angus bulls on this list are the top ten in the offering and right at the top of the breed in these economically relevant traits.

The \$37,000 high seller in 2018 to Swanson Cattle Company in Oxford, NE and Glover Cattle Company of Elgin, OK has skipped base hits and just gone straight to homeruns. His first daughter to sell last year topped the heifer division to Mark Angus in MB, Canada and now his progeny leads off the bull sale. Our biggest problem with the bull is that we had not used him enough but starting next year you'll see a lot more. Every Angus breeder and bull stud has their favorite 1682 son, we think this one deserves to be right at the top of them. We are calving the first daughters and full and maternal brothers are featured throughout the sale. Here's a chance to be ahead on a great young sire.

4 star calving ease

This is might be the most complete herdsire that we have offered to date. Both his granddams are in our donor pen. He ratio'd 120 at weaning and 112 at yearling along with as complete a set of EPDs as you can find. He has the kind of phenotype that is rare to find and is a favorite of early visitors. We lost his dam on corn stalks this winter or she'd be headed to the donor pen. We'd like to collect semen on him this spring to use in our program.

Added as an outcross sire after going through the cattle at Krebs Ranch dispersal, Outside adds length of body, bone and muscle shape to his progeny. They are high growth cattle with moderate milk that we thought fit well with our Final Product and Upgrade cows. Some of the best bulls in the fall calves just weaned are Outsides with three quarter brothers selling in this sale.

Complete lives up to his name. He puts together one of the most economically sound set of numerical figures in the entire breed and what is most important to us is that his daughters' production is impressive. You will find bulls and heifers out of Complete daughters pictured throughout the catalog. Between our partnership with R.A. Brown Ranch and Beef 360 on Complete, his sons are only going to be in higher demand. Look for him to see more use across the country and the world in the future.

A maternal brother to the immortal Styles Upgrade J59 that we found as a 3-year-old breeding cows at Moore Angus in SD. His calves at Moore's were so impressive we thought that we needed to add him to our herd sire battery. This first set of bulls and females have proved that decision wise. It goes along with our philosophy that great bulls come from great cows and you can never have too many.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlivestock.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlivestock.com and click on the tab titled "Register for a Buyer Number". Select the registration form for Superior Productions and print the registration form, fill it out and fax it in to Superior Productions at (817) 378-3380 with a signature on it, or scan and email the form to info@superiorauction.com. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's online bidding platform for cattle buying. Please note that high speed internet is required - *this is not for dial-up or satellite internet*. Registration is free, but you must become a member of www.superiorclicktobid.com to sign up. Becoming a member is easy - just go to the homepage of www.superiorclicktobid.com and follow the out-lined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for and once approved you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. There are 2 places to view the sale broadcast live on the internet: www.superiorlivestock.com or www.superiorclicktobid.com. Just go to the home page of either website and select the auction. If you just want to watch the auction on your computer, smartphone or tablet go to www.superiorlivestock.com, but if you want to bid over the computer you must go to www.superiorclicktobid.com. Remember you can call in to bid on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed for this website to view the auction. If you have any questions, please call the Superior Productions office at 800-431-4452.

*If you plan to bid by phone through Superior Livestock or 'Click-to-Bid', you must register at www.superiorlivestock.com prior to bidding.

The proven calving ease bull in the Genex line-up that we decided to use heavily for the last 3 years to make a solid female base. Solution continues to show up on the maternal side of pedigrees of some of the most successful AI bulls in the country like HA Cowboy Up and Cherry Crk Land Grant. This is the last big set of Solutions we are planning to make. They might be the most impressive set yet with multiple heifer bulls over 700 lbs. of adjusted weaning weight and the look and build we strive for.

This herdsire in the making has rung every bell since birth. He's the heaviest weaning and yearling weight bull out of the 2 year olds while gaining at a 116 ratio. If you need a bull that will be easy to calve on cows and make those calves that are pounds heavy at the pay window, here's the guy. His length of side and squareness of hip and great balance make him fun to look at too.

This Beef 360 featured sire is a ¾ brother to Powerpoint that we decided to add to our program for his added thickness and scrotal size. He was described to me by a friend that breeds Limousin cattle as the stoutest Angus bull he has ever seen. The daughters are incredible and these bulls are consistently good. A group of Powerpoint and Thrive bulls breeding commercial cows together could enhance your profitability for years to come.

One of our goals is to supply our commercial customers with predictable high quality genetics. Broken Bow is part of that commitment for us. His daughters work in our environment and his calving ease bulls continue to perform at the top of the group. He fits our ranch profitability index as well as any bull in the breed.

Our top seller in 2016 whose first set of calves were the highlight of our 2018 sale with 3 sons going to purebred breeders. He makes moderate, big topped bulls and females that excel across a wide variety of economically relevant traits. His now deceased dam was one of the best cows on the ranch and she produced the high selling bull in 2017 as well. Her daughters and granddaughters are now carrying on her legacy with many bulls in this sale out of Bullet Proof daughters.

Commercial Angus bull

This guy has 5 generations of AI sires in his pedigree but goes back our highly productive commercial black tag cows. He was Steve Shermer's favorite at the South Ranch and just too good to cut so we decided to offer him here. His mother and grandmother are some of the best phenotypic cows on the place.

This ABS featured sire had my favorite sire group at Connealy's in 2019 so we decided to sample him as a semi-proven outcross. After getting the first ones on the ground and sons being the high sellers at Jerry's in 2020, we went back and used him hard last year. This first set is impressive and includes the most docile bull in the offering.

The sire of last year's top seller, WAR Games, to RB Angus and the 3rd high seller to Schur Cattle in TX. These Pay Raises are just our kind of cattle: extra sound, the right size, with muscle and rib. His first daughters have produced bulls on the sale and his featured son broke our long-standing weaning weight record. Semen is limited so we never have very many of these but the ones we do are worth taking a look at.

4 star calving ease

You'll find this 700 lbs weaning weight bull in the pens. He'd be glad to be hand fed. He has an extra quality look with lots of shape and dimension. Top 10% SC, DOC, Top 15% BW

WE DON'T JUST RAISE BULLS.

We run 1,500 commercial cows, a feedlot and sell cattle on a grid. We breed and develop cattle to be profitable for us, our customers, and the industry.

THAT'S TOTAL PERFORMANCE.

Our \$25,000 selection of the Krebs Ranch sale after he served as the anchor bull of their division champion pen of bulls. His disposition looks and soundness with an outcross pedigree in a calving ease package led us to him. After this first set, we have bred a lot of heifers and cows to him for next year. The calves have a lot of vigor and in winters like this one that means a lot.

The sisters to these bulls are worth a trip down to the stalks to see. They are impressive and especially so when you realize that Ashlyn has the best two in her show string.

Top Dollar Angus Feeder Calf Program

Promote Your Verified Genetic Investment

Top Dollar Angus is the industry leader in third-party genetic verification and marketing assistance for superior Angus and Red Angus-based feeder cattle. Our program stamps a unique identity on the 'best of the best' by verifying and then showcasing their genetic merit. The Top Dollar Angus team works directly with a large number of feedyards and buyers to provide them with documented superior feeder cattle, coupled with genetic risk mitigation and the precision understanding they need to pursue your cattle with absolute confidence.

Top Dollar Angus enables cow-calf producers to benefit from the genetic value already built into their herds. Producers that invest in high-end genetics, as well as strong health and nutrition programs, need a means of positively differentiating their calves from average cattle. Top Dollar Angus does that. Industry demand is strong for genetically superior feeder calves with the right supporting documentation. Don't make buyers guess, let them know by putting the Top Dollar Angus badge of honor on your premium genetic investment.

How it Works:

Our program begins with a FREE genetic evaluation based on the current/past herd sires used in your program. We evaluate the sires used in your herd based on their growth and carcass merit characteristics. A herd that qualifies for Top Dollar Angus has cattle that are at least 50% Angus or Red Angus and also ranks in the top 25% of its respective breed for growth and carcass merit.

Once qualified, our team provides boots on the ground to share this valuable information with buyers looking for high quality cattle that will go on feed and perform. Our team has experience coast to coast and works directly in all channels (video, local auction, direct and internet). Plus, we have the resources to provide a very fast turn-around.

What our Customers Say:

"Top Dollar Angus is a program that benefits all levels of the industry. The seedstock producer is rewarded for providing superior genetics to the commercial cattleman, who in turn supplies the feeder with efficient cattle that will produce top-end carcasses. As Top Dollar Angus continues to raise their qualifying standard, these cattlemen will have to up their game to purchase the genetics that will fit the program. These cattlemen will see a return on investment when offering reputation feeders at market time."

Great cows make great bulls and this bull and his 5 full brothers prove it. Lot 116 leads off a string of brothers out of our best Mytty In Focus daughter, X224. X224's production record BW 8-95, WW 8-103 YW 6-105. All her daughters have been retained in the herd and her granddaughter by Woodhill Complete has one of the highlight spring bulls. If you retain females, this flush of age advantaged bulls will be the kind to make front end replacements. This one is the heaviest yearling and 550 day weight fall bull.

5 star calving ease

Here's the bull that has been a highlight of all our flyers and mailings, His 3/4 rear shot just screams good livestock. We love his width, dimension and squareness of skeleton. It reminds us so much of his paternal grandmother X020 and is why we've used Bullet Proof so heavily. His daughters will fit and excel in any environment and steers with his width and length will weigh up with anything. The old adage that we use is "An inch longer is an inch heavier" and he's got that in spades. That's why.

Fairbanks was a bull that we found at Knoll Crest with a unique set of EPDs, phenotype and pedigree to put some Plattemere Weigh Up genetics in the cowherd. We used him heavily on heifers in the commercial herd and then on the falls. He was owned with ADR Cattle Co. in VA. If you're looking for a bull to breed your heifers to, this guy is guaranteed to work well.

 Maternal brother was Lot 1 and our high selling bull in 2019. His granddam is one of the best phenotypic cows in the herd. Enterprise is doing a great job on heifer projects around the country and we added a son LT Dupree to our her bull lineup. Here's a sure shot heifer bull with cow making credentials.

A calving ease bull whose progeny have excelled in the pasture and show ring. When shopping for herd bulls in 2019, we couldn't help but continually find Resource sons that fit what we were wanting to do: calving ease Charolais with performance, rib shape and a quality look. We found Strategy and used Resource heavily AI. We think when you see the offering you'll agree both were good ideas.

When looking for herd bulls in 2018, this was the top performing bull in our herd. We looked all over the country and only found two bulls in Icon and Kingsman that we thought could keep up with him. This year, his bulls outperformed both of those highly used AI sires. He's known around the ranch as High Tech and we think his calves have a top of the line look.

On his own merits, this bull should have purebred herdsire consideration. Ratios of 98 at birth, 114 weaning and 116 yearling make him a top individual. Then you look at his cow family, the Duchess cow family has produced AI sires and national champions. His brother WR Travel Agent is at Select Sires, his sister, B612, produced WR Foreman at ST Genetics, and his brothers topped last years sale. **He's homozygous polled** and ranks at the top of our index and AICA's.

This heifer is an absolute beast and has been since this summer on grass. Trey Wasserburger talked me into using T/D Tiger after he topped their sale in 2019 and I'm glad. Semen is now limited on the bull after an injury while breeding as a yearling and we have 3 heifers that are impressive. We decided to offer the stoutest one to you. She puts together a set of figures that are top notch and is 3 generations deep in early calving cows. She is bound for someone's donor pen.

We started with two Outside daughters thinking we'd only offer one but in the end we couldn't decide which one was best so we'll let you decide. As you evaluate the pair of sisters, you'll understand why we decided to add Outside and Outlier to our AI and herdsire line-ups. We sold an Outside sired heifer for \$8,000 this fall to the Shaw Family. This one out of a Pathfinder could be as good.

It's rare that we part with a Complete daughter with what they are doing in our program, but this one is special and the world should see what he can do. With RA Brown purchasing 1/2 interest in the bull this summer, expect for him to get famous very quickly. This one sports one of the highest Marbling, \$B and \$C EPDs in the entire offering and is good enough to hang a halter on.

We used the Genex featured Paintrock Trapper last year to add some PAP and \$M in a good looking package to our cowherd. This heifer from the same cow family as Lot 185 does that nicely ranking in the top 5% for \$M. She's highly fertile, coming into her first heat at 9 months of age.

Cow family deluxe on this heifer. Her brother was second high seller in 2019 to Sharon Wagner in SK and his first set of calves have been impressive stepping in the ring at the Stockman's Classic in AB. This heifer by resident herdsire WAR Tactics will be a bull maker like her mother. Check out her paternal brother Lot 84 for confirmation.

Here's freak for growth and marbling that is royally bred. Her dam is a maternal sister to long time Genex featured WR Wrangler W601. Don't let her actual birth weight scare you, her mother ran dry in 2019 after losing that calf in a blizzard. Her 117 weaning ratio sure sets her up for success as a breeding piece though she won't be one to put a halter on. Top 6% Marb, Top 7% WW, Top 15% Milk, RE, Top 20% YW, Top 25% TSI

This is a fancy May born show heifer prospect. Her dam is a maternal sister to High Tech, the featured Wagonhammer herdsire. He's by the phenotypic standout Strategy who's flush sister was 3rd overall at Minnesota State Fair. She's only seen a halter a couple times but she'll figure it out quickly and go on to make herd bulls. Top 25% CED, BW
